

It is important to me that K-Love remain on the air. I listen to it everyday for inspiration and an uplifting. It helps relieve my stress from a hard day at work. If it is displaced by an LPFM broadcaster that provides other programming, the community would lose a wonderful support for Christian listeners, young and old alike. I've talked with other Christians and they too listen each day and enjoy the commercial free music that is played on K-LOVE. Many young people are listening to this music rather than the secular music that is often so negative and detrimental. K-LOVE is always a positive alternative with the music that attracts the younger generation but can also be enjoyed by those of us that are older. Please do not remove K-LOVE with an LPFM broadcaster.
